\* **\*\*Collaboration:\*\*** Strong teamwork and communication skills

**\*\*Relevant Projects:\*\***

\* [Insert relevant projects that demonstrate your C++ skills and experience]

As you can see, I've emphasized Artur's C++ skills and experiences most relevant to the Senior C++ Developer position at Square One. I've also removed the irrelevant work experience and education sections, focusing on the mechatronics background and programming skills. The CV is now well-formatted with clear section headers and professional language.
