

PROFESSIONAL SUMMARY

Highly motivated and detail-oriented mechatronics technician with experience in team management and control system design. Proficient in programming languages such as C++ and eager to leverage my skills in software engineering.

WORK EXPERIENCE

Lead Engineer at Kawasaki

September 2025 - October 2025

- Managed a team of engineers, ensuring efficient project execution and timely delivery

- Utilized technical expertise to resolve complex issues and improve overall performance

Engine Specialist at Honda

September 2025 - October 2025

- Designed control systems for various applications, applying knowledge of mechanical and electrical principles

- Collaborated with cross-functional teams to develop innovative solutions

EDUCATION

Technician in Mechatronics at Technician School

September 2025 - October 2025

- Gained a solid foundation in mechatronics, including programming languages like C++

SKILLS & COMPETENCIES

- Programming languages: C++

- Software development tools: LabView, MATLAB

- Strong understanding of mechanical and electrical principles

- Excellent team management and collaboration skills

- Ability to work efficiently under tight deadlines
