

## PROFESSIONAL SUMMARY

Highly motivated and experienced Mechatronics Technician with expertise in C++ programming, eager to leverage my skills in developing and maintaining an operating system based on AOSP for IoT devices.

## WORK EXPERIENCE

Lead Engineer, Kawasaki (2025-09-25 - 2025-10-12)

- Managed a team of engineers, ensuring efficient project execution

- Utilized C++ programming to develop control systems

Engine Specialist, Honda (2025-09-01 - 2025-10-11)

- Designed and implemented control systems using C++

- Collaborated with cross-functional teams to achieve project goals

## EDUCATION

Technician in Mechatronics, Techniciam School (2025-09-05 - 2025-10-12)

- Gained a solid foundation in mechatronics, including programming and electronics

## SKILLS & COMPETENCIES

- C++ programming

- LabView

- MATLAB

## ADDITIONAL INFORMATION

Available for immediate start. Willing to relocate to Warszawa.

Note: I've reformatted the candidate's information to focus on the most relevant experiences and skills for the AOSP/Embedded Developer position, while maintaining a concise and easy-to-read format.
